

## System Overview

- Designed for insulated doors up to 100mm (4in) thick
- Suitable for pressurized systems
- Highly adjustable and tolerant to dimensional variation
- Provides up to 2mm of compression
- Configurable as a single latch or multipoint system

#### **Notes**

A single point latch requires
Handle, Handle shaft, and Cam
Latch. Multipoint systems require
at least one Handle and Handle
Shaft, Remote Shafts and Remote
Covers for additional latch points,
a Multipoint Rod, and Multipoint
Cam Latches for ALL latch points.
Emergency Handle and Pressure
Release Bracket options also
available.

Order each component separately

#### **Specifying an M4 system:**

- 1. Select Handle (P233B). Multiple security options available
- 2. Select Shaft (p233C & p233E). Handle Shaft and Remote Shaft options
- 3. Select Cam Latch (p233C & p233F). Cam Latch and Multipoint Cam Latch options
- Include Remote Covers (p233E) and a Multipoint Rod (p233G) for multipoint systems
- 5. Select optional accessories (p233D)

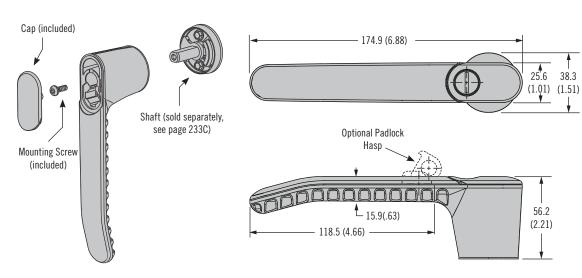

See Trade drawing for additional details.

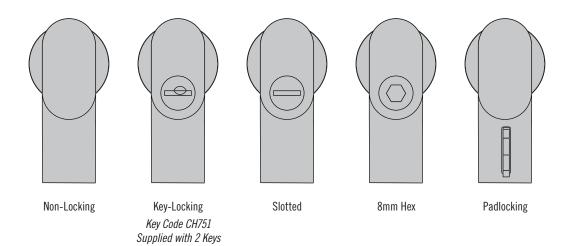

# M4 Modular Handle System Handles

#### **Available Lock Styles**

Part Number		
Non-Locking	M4-10-123-20	
Key-Locking	M4-10-131-20	
Slotted	M4-10-100-20	
8mm Hex	M4-10-101-20	
Padlocking	M4-10-223-20	

- Easy actuation even with gloved hands
- Minimizes heat transfer through door
- Removable for transport

#### **Material and Finish**

Handle, Cap: Glass-filled nylon, black Lock Plate, Hasp, Screw: Steel, zincplate

Lock Plug, Pin: Die cast zinc, chromate

#### **Installation Notes**

Secure Handle to Handle Shaft with screw provided and press in the Cap. Cap is removable when handle is unlocked. Only one Handle is required for multipoint systems.

#### Notes

For use with M4 Handle Shaft (pg 233C).

#### **Part Number**

See table

Order Handle and Handle Shaft separately

#### Handle Shaft and Cam Latch

- Accommodates wide tolerances in door thickness
- Modular design protects door integrity
- Provides up to 2mm of compression

#### **Material and Finish**

Shaft: Steel with zinc plate, black glass-filled nylon, Silicone, Buna-N Cam Latch: Steel with zinc plate, black glass-filled nylon, EPDM

#### **Sealing Notes**

**NEMA 4 / IP65** 

#### **Installation Notes**

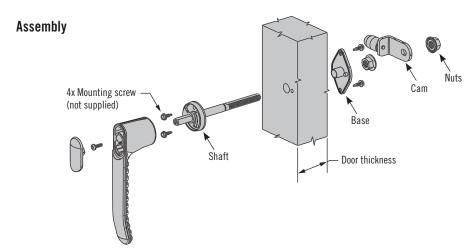

Attach using M4 or #8 hardware (not supplied). Self tapping screws (not supplied) may be used in sheet metal thicknesses from 0.6 to 2mm (0.02 - 0.08). Adjust roller cam location using jam nuts until proper gasket compression is achieved.

#### **Notes**

For use with M4 Handle (pg 233B) and optional M4 Accessories (pg 233D). M4 Handle Shaft may also be used with M4 Multipoint Rod (pg 233G) and M4 Multipoint Latches (pg 233F) at driving latch point location only.

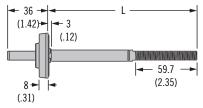

#### **Part Number**

See tables Order Handle, Shaft(s), Latch, Multipoint Latch(es), Multipoint Rod, and optional Accessories separately.

#### **Handle Shaft**

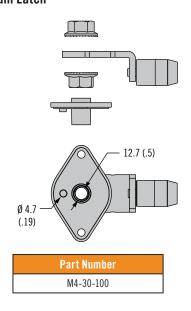

#### Panel Preparation (viewed from outside of door)

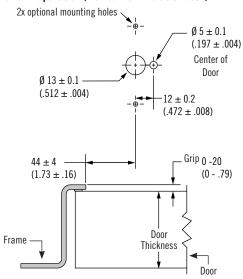

Door Thickness +/- 6.4 (0.25)	L	Part Number
25 (1)	87.5 (3.44)	M4-20-125-20
38 (1.5)	100.2 (3.94)	M4-20-138-20
51 (2)	112.9 (4.44)	M4-20-150-20
64 (2.5)	125.6 (4.94)	M4-20-163-20
76 (3)	138.3 (5.44)	M4-20-176-20
89 (3.5)	151.0 (5.94)	M4-20-189-20
102 (4)	163.7 (6.44)	M4-20-1102-20

#### **Cam Latch**

#### Panel Preparation (viewed from inside of door)

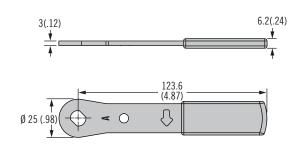

# M4 Modular Handle System Accessories

#### **Emergency Handle**

Part Number

M4-50-1101-12

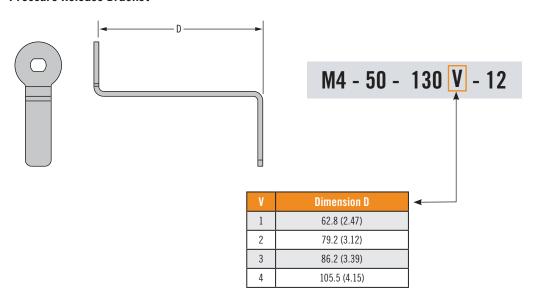

## Material and Finish

Steel with zinc plate, red plastic

#### **Notes**

Emergency handles allow latches to be opened from inside the enclosure. For use with M4 Handle Shaft and Latch (pg 233C) or M4 Multipoint Latch (pg 233F)

#### **Pressure Release Bracket**

#### **Material and Finish**

Steel with zinc plate

#### **Notes**

Pressure release brackets prevent doors from being fully opened until pressure inside of the enclosure is safely released. For use with M4 Handle Shaft and Latch (pg 233C) or M4 Multipoint Latch (pg 233F)

#### **Part Number**

See tables

Order Shaft, Latch, Emergency Handle, and Pressure Release Bracket separately.

#### Remote Shaft and Cover

- System provides up to 4 latching points
- Accommodates wide tolerances in door thickness
- Modular design protects door integrity
- Provides up to 2mm of compression

#### **Material and Finish**

Shaft: Steel with zinc plate, black glass-filled nylon, Silicone, Buna-N Remote Cover: Steel with zinc plate, black glass-filled nylon

#### **Sealing Notes**

**NEMA 4 / IP65** 

#### **Installation Notes**

Attach using M4 or #8 hardware (not supplied). Self tapping screws (not supplied) may be used in sheet metal thicknesses from 0.6 to 2mm (0.02 - 0.08). Adjust roller cam location using jam nuts until proper gasket compression is achieved.

#### **Notes**

For use with M4 Multipoint Latches (pg 233F), M4 Multipoint Rod (pg 233G), and optional M4 Accessories (pg 233D).

#### **Part Number**

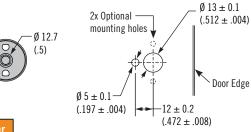

See tables Order Remote Shaft(s), Remote Shaft Cover(s), Multipoint Latches, Multipoint Rod, and optional Accessories separately.

# M4 Modular Handle System Multipoint Cam Latches

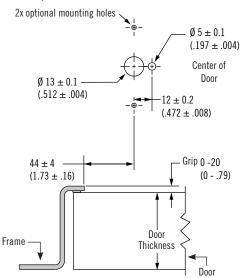

#### Multipoint Cam Latch - Type A

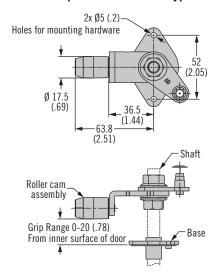

#### Panel Preparation (viewed from inside of door)

#### Multipoint Cam Latch - Type B

Multipoint Cam Latch	Part Number
Туре А	M4-30-120
Туре В	M4-30-130

- System provides up to 4 latching points
- Accommodates wide tolerances in door thickness
- Modular design protects door integrity
- Provides up to 2mm of compression

#### **Material and Finish**

Multipoint Cam Latch: Steel with zinc plate, black glass-filled nylon, EPDM

#### **Sealing Notes**

NEMA 4 / IP65

#### **Installation Notes**

Attach using M4 or #8 hardware (not supplied). Self tapping screws (not supplied) may be used in sheet metal thicknesses from

0.6 to 2mm (.02 - .08).

Adjust roller cam location using jam nuts until proper gasket compression is achieved.

#### **Notes**

For use with M4 Handle Shaft (pg 233C), M4 Remote Shaft(s) (pg 233E), and M4 Multipoint Rod (pg 233G).

#### **Part Number**

See table

External Handle Rotation:
Clockwise to close use Type A
Counter-clockwise to close use Type B
Order Shafts, Multipoint Latches, and
Multipoint Rod separately.

## Multipoint Rods

- Multiple lengths and latching point locations
- Adjustable to accommodate tolerance variation

#### **Material and Finish**

Rod: Aluminum

Plate, Screw: Steel with zinc plate

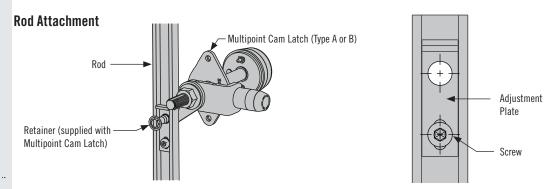

#### **Installation Notes**

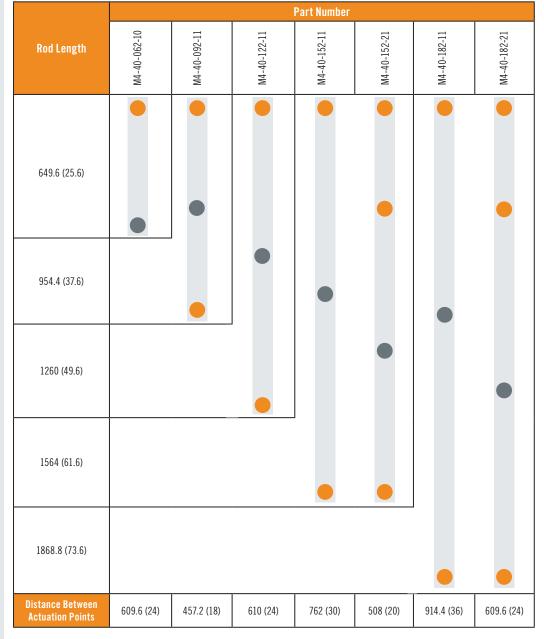

A system consists of: one Multipoint Rod, a Handle and Handle Shaft (pg223B & 223C) for actuation, and Remote Shaft Covers and Remote Shafts (pg233E) for each additional latch point. Multipoint Cam Latches (pg223F) are used at ALL latch points. Optional accessories available (pg233D).

#### **Part Number**

See table

Order M4 Handle, M4 Remote Shaft Cover(s), M4 Handle Shaft, M4 Remote Shaft(s), M4 Multipoint Cam Latches, M4 Multipoint Rod, and optional M4 Accessories separately.

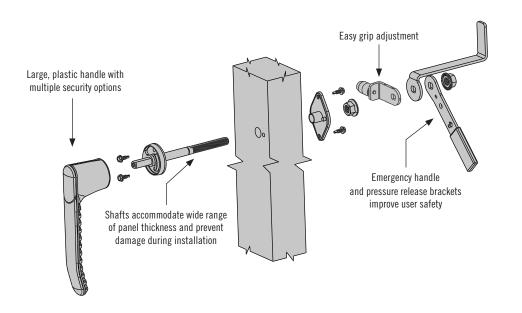

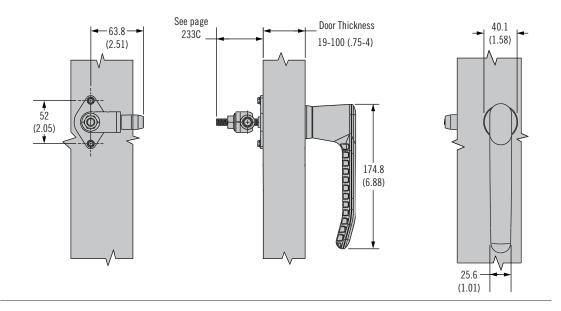

Actuator Connection with Adjustment Plate

## **M4** Cam Latch Hand-Operated • Adjustable Grip

#### **Specifying an M4 Cam Latch:**

All components must be ordered separately

- 1. Select handle (pg 233B) Multiple security options available
- 2. Select shaft length based on door thickness (pg 233C)
- 3. Order cam latch hardware (pg 233C) Part Number: M4-30-100
- 4. Select optional accessories (pg 233D)

See trade drawings for additional information

- Designed for doors up to 100mm (4in) thick or pressurized systems
- Safe, simple, secure latching
- Plastic handle minimizes heat transfer
- Provides up to 2mm of compression

#### **Sealing Notes**

NEMA 4 / IP65

#### **Notes**

See pages 233A through 233D or southco.com/M4 for more details. Complete system consists of handle, shaft, latch, Emergency handle (optional), and pressure release bracket (optional)

#### **Part Number**

See pages 233A-233D

Order each component separately.

Latch can also be used in multipoint configuration. See pages 233E

– 233G for Multipoint details.
